The *mission* of the Bridgerland Applied Technology College is to deliver competency-based, employer-guided career and technical education to both secondary and post-secondary students through traditional and technology-enhanced methodologies. This hands-on technical education provides occupational education, skills training, and workforce development to support the educational and economic development of the Bear River Region.

Changing lives…one student at a time!

What's Inside?

SHORT-TERM CLASSES
CONTINUING EDUCATION, SKILL UPGRADE, LIFE-LONG LEARNING

Short-Term courses vary in length from 10 hours to 250 hours and are offered primarily in the evening. These courses are designed to improve employment skills and/or stimulate interest in rewarding occupational programs.

Refund Policy:
100% will be refunded up to five working days after the first scheduled class, and none thereafter. For courses with lengths less than five days, 100% will be refunded prior to the beginning of class and none thereafter.

Late Fee:
$25 after the first day of class.

Registration begins **July 5 at 7:30 am**; no pre-registration will be accepted. Registration is held quarterly on a first-come, first-serve basis; and payment is due at time of registration. Register at least one week before class begins. Seating is limited!

ONLINE REGISTRATION
Prepare for registration by creating your online account. Step-by-step directions are found at my.batc.edu. Already have an account? Login to my.batc.edu and start registering. It's that easy!

IN-PERSON REGISTRATION
The College will open at 7:30 am on the first day of registration.

IN-PERSON REGISTRATION HOURS

Logan (Main Campus)		Brigham City

BASIC SKILLS & COMMUNICATION

OPEN-ENTRY/SELF-PACED
Open-entry/self-paced courses are individualized and available for registration any time if openings exist. Students work through modules designed to master course material. An instructor is available to provide feedback and help you through the learning process. *You may need to enroll for more than one session in order to complete the course depending on your rate of progression.*

ENTRANCE EDGE
Learn the academic skills needed for success prior to entering the program of your choice.
Logan & Brigham City

ESSENTIAL EDUCATION
Upgrade or refresh your educational skills in reading, English, math, spelling, and more. A pre-test is used to determine placement.
Logan & Brigham City

GED TEST PREPARATION
Prepare to pass all four parts of the GED test – or only work on the sections you need!
Logan & Brigham City

OTHER TEST PREPARATION
Prepare for the ACT, ASVAB, POST, COMPASS, ACCUPLACER or other tests.
Logan & Brigham City

Flexible Hours
Students will choose to attend 10 to 80 hrs per month (10 hr increments).

•Logan•
Contact Sean at 750-3238 for a start date. The lab is open Monday - Thursday 8 am to 8 pm and Friday 8 am to 4 pm.
| M - F | Arranged | $48* (4 weeks) |

•Brigham City•
Contact Karen at 237-0994 for a start date. Lab is open Monday through Friday 8 am to 12 noon.
| M - F | Arranged | $48* (4 weeks) |

JOB SEEKING SKILLS WORKPLACE RELATIONS
Jump into your dream job with important communication and workplace readiness skills. These courses have online components.
Logan & Brigham City

FUNDAMENTALS OF MATHEMATICS (MATH 800 SKILLS)
Prepare for college-level mathematics. Start date and schedule is arranged with instructor. Please call 750-3165 (Logan) or 237-0994 (Brigham) for details.

MATH PLACEMENT TEST HELP (MPT)

There are three options for students who want help reviewing math for the math placement test (a test used by USU and other universities).

Math Placement Testing

For dates and times email *math@batc.edu* or visit *batc.edu*

Option 1: Study Sessions
Study sessions are $10. A review of both college level math and trigonometry may significantly boost your score and is highly recommended.

Option 2: Self-Paced with Tutoring Lab
Review your math more completely for that next test. At $48 for 4 weeks, you decide when you want to start! Gain access to the lab, tutors, and courseware.

Option 3: Short-Term Classes
See this schedule for individual lecture-based classes.

AMERICAN SIGN LANGUAGE

AMERICAN SIGN LANGUAGE (ASL) 1 - BEGINNING
This class is appropriate for students with no prior knowledge of ASL or for students who know a few signs and want to learn more of the grammar and usage of ASL. It is also a great class for parents wanting to learn basic signs to use with their babies/children or for professionals wanting to learn to communicate with Deaf clients in the workplace. High school juniors and seniors may also enroll in ASL classes to earn foreign language credit. Questions? Email asl@batc.edu.

Logan Main Campus

ASLA 0101 01 LC	Aug 28 - Nov 17	M W F	8:30-9:45 am	$284*
ASLA 0101 02 LC	Aug 28 - Nov 15	M W	6-8 pm	$284*

BUSINESS/MARKETING

SALESMANSHIP
We are constantly selling something - products, services, ideas, or an image - but the world of "sales" has changed. Customers have redefined what they expect. Professional salesmanship establishes and builds a customer-focused relationship that keeps a diverse group of clients comfortable and coming back for more. This course prepares participants to enter a career in sales and/or make themselves more marketable in their current industry, whether it is computer sciences, nursing, mechanics, etc. All industries use some type of customer interaction that this course can prepare participants for. The course content is online and class will be held for discussion and group interaction on a weekly basis. Mandatory labs held Wednesdays July 12 through August 16 from 6-8 pm. Course also includes a 60-hour internship.

Logan Main Campus

MRKT 1001 01 LC	July 10 - Sept 22	Blended	$238

SELF-PACED BUSINESS COURSES
These courses are competency-based allowing you to progress as your schedule permits at home, work, or school!
Open Lab Availability:
   Logan (LC): Mon - Thurs 2 pm - 7 pm. Contact: Kyle at 750-3190
   Brigham City (BC): Mon - Wed 8 am - 12 pm or 5 pm - 8 pm. Contact Kristen at 237-0069.

DRAFTING/CONSTRUCTION

CABINETMAKING (BEGINNING)
This class is designed to teach the fundamentals of the art of cabinetmaking. Safe and proper use of shop tools and machines will also be part of the instruction. Previous experience is not necessary but can be helpful. Students will design, plan, layout, and construct a cabinet of their choice, as approved by the instructor. Each process, from the cabinet design to the finished product, will be demonstrated and closely monitored by the instructor to ensure a successful experience. Questions? Contact David Wimpy at dwimpy@batc.edu.

Logan Main Campus

CABM 0101 01 LC	July 6 - Sept 12	Tu Th	6-9 pm	$139*

CABINETMAKING (INTERMEDIATE)
Design, plan, layout, and construct a cabinet **of your choice** (and approved by the instructor). This intermediate class has been developed for those who have previously taken the Beginning Cabinetmaking class. The focus of this class will be to further develop the student's cabinetmaking skills by utilizing the competencies already learned in the Beginning Cabinetmaking class. Questions? Contact David Wimpy at dwimpy@batc.edu.
Prerequisite: Beginning Cabinetmaking

Logan Main Campus

CABM 0102 01 LC	July 5 - Sept 18	M W	6-9 pm	$139*

CABINETMAKING (30-HOUR LAB)
This cabinetmaking lab is designed for **experienced** cabinetmaking students wanting to work on their own to finish projects or develop new small projects. This lab will have limited instructor involvement and will require the student to observe safety practices as previously instructed. The student will have to pass the safety test and a **schedule of attendance must be worked out with the instructor.** Questions? Contact David Wimpy at dwimpy@batc.edu.

CODE UPDATES
The following code update classes focus on the state and local building codes and will satisfy the continuing education requirements for trade and contractor licensing. Partial funding has been applied by the Division of Occupational & Professional Licensing from the 1% Surcharge Funds on all building permits on most of the courses.

2017 NEC • Applying Formulas & Tables in Ugly's Book
Logan West Campus

APPR 0106 01 LC	Aug 12	Sat	8 am-4:30 pm	$45
	8 Core Hrs for Electrician CEU's			$55 after 8/11

Manual D-Residential Duct Systems
Logan West Campus

APPR 0106 02 LC	Sept 15	Fri	8 am-4:30 pm	$45
	8 Core Hrs for Contractors, Inspectors, HVAC Contractors & Technicians CEU's			$55 after 9/14

2017 NEC • Electrical Code for the Trades
Logan West Campus

APPR 0106 03 LC	Sept 22	Fri	8 am-4:30 pm	$45
	8 Core Hrs for Electrician CEU's			$55 after 9/21

10-HOUR OSHA SAFETY TRAINING
Course can count for 10 Hrs Core Credit toward Contractor CEU's.

⟶ **ONLINE**   APPR 0103 Online • Registration ongoing $75

FORKLIFT OPERATION CERTIFICATION (ENGLISH OR SPANISH)
This online OSHA certified course covers current regulations for the safe operation of a lift truck. Once a student completes the online course they schedule a time with the instructor to do the practical exam. Once both portions are successfully completed they will receive their Forklift Operator Card. Students must complete both portions within the block of time they have chosen.

40-HOUR TRAINING

HEOP0105 01 LC	Sept 27, 28, 29	W Th F	8-4:30 pm	$299

The 40-hour cert. requires additional assignments, documentation, and testing.

SENSORS

Discover different types of sensors and how they are applied. This course introduces students to the concepts and terminology of Instrumentation-Process control using theory and a hands on approach used in many Temperature, Pressure, Level, Flow, and Automatic Control applications. This course will cover the operation of various safety devices such as light curtains and safety relays. This course will expand on the knowledge of load cells and applications. Students will be able to configure and troubleshoot load cells. The student will also learn how to calibrate a scale head and how to read information from the load cell into a PLC. 32 hours lab and lecture. 28 hours open lab time will be made available to complete assignments. Prerequisite: IAMT 2000 PLC 1. Questions? Email: sdanielson@batc.edu or phone (435) 750-3285.

Logan West Campus

IAMT 2011 01 LC	Aug 8 - Sept 26	Tues	5-9 pm	$179

SERVO MOTORS AND DRIVES

Introduces servomechanisms to the student. Covers the basic operation of a motion control application. Students will program a servo drive and motor to perform basic motion commands. This course will be directed at configuration and tuning of a motion control application. Students will wire and program an electric motor drive to be self-controlled within a process. 16 hours lab and lecture. 14 hours open lab time will be made available to complete assignments. Prerequisites: IAMT 2050 PLC 2 and IAMT 2270 HMI. Questions? Email: sdanielson@batc.edu or phone (435) 750-3285.

Logan West Campus

IAMT 2074 01 LC	July 11 - Aug 1	Tues	5-9 pm	$99

*Text and/or supplies may be required

WELDING • BLACKSMITHING
Learn basic blacksmithing skills and fundamentals in this 30-hour class. Students will make several tools. Safety glasses and gloves are required.

Logan Main Campus

WELD 0103 01 LC	July 13 - Sept 14	Thurs	6-9 pm	$169*

WELDING • BEGINNING
Learn skills in Oxyacetylene Welding, Cutting, Shielded Metal Arc (Stick), Gas Metal Arc (Mig) Welding, and maintenance welding skills.

Logan Main Campus

WELD 0101 01 LC	July 11 - Sept 14	Tu Th	6-9 pm	$169*

WELDING •CERTIFICATION & PROCESSES
Learn over a dozen welding processes with emphasis on welder certification of mild steel, aluminum, and stainless. Students can choose which processes they want to certify in.

Logan Main Campus

WELD 0102 01 LC	July 11 - Sept 14	Tu Th	6-9 pm	$169*

PUBLIC SERVICE

EMERGENCY MEDICAL SERVICES

ADULT RHYTHMS
This self-paced course is ideal for EMS personnel needing basic rhythm recognition skills. It provides basic rhythm understanding and teaches how to distinguish between various arrhythmias. This course is not compatible with Macintosh computers or operating systems. Students will have 30 calendar days to complete this course.

➡ **ONLINE**

EMSR 0103	Online • Registration ongoing	$45

BLOODBORNE PATHOGENS
This self-paced course is for anyone with a reasonable chance for occupational exposure to blood or blood-containing materials. It teaches what bloodborne pathogens are, how to protect from exposure, how to clean up after an exposure, and how to report an exposure. Students will have 30 calendar days to complete this course. No skills lab required.

➡ **ONLINE**

EMSR 0104	Online • Registration ongoing	$25

EMERGENCY MEDICAL TECHNICIAN (EMT)
Learn to respond to emergency calls and provide efficient and immediate care to the critically ill and injured including transport to a medical facility. Prepares for NREMT (National Registry EMT) and State of Utah certification. Cost includes handbook, textbook, supplies, and class t-shirt. Students will be responsible for national testing fee. Students must have Healthcare Provider CPR certification or equivalent as well as documentation of a current TB test within the last 12 months. **A non-refundable $25 background check fee is required for clinical clearance.** High school diploma/GED required.

Logan West Campus

EMSR 1201 01 LC	Sept 6 - Nov 27	M W F	6-10 pm	$975

EMERGENCY MEDICAL TECHNICIAN • ADVANCED (AEMT)
Prerequisite: Emergency Medical Technician (currently certified)
Topics include advanced pathophysiology, intravenous therapy, advanced airway skills, and medication administration. Prepares for NREMT (National Registry EMT) and State of Utah certification. Cost includes textbook, supplies, state certification fee, ridealong and clinical hours. Students will be responsible for national testing fee. **A non-refundable $25 background check fee is required for ridealong and clinical clearance**. Must have documentation of a current TB test within the last 12 months.

Logan West Campus

EMSR 2201 01 LC	Aug 23 - Nov 17	M W F	8-12 noon	$875

HEALTHCARE PROVIDER (CPR)
Professional level required for EMT program and for students working in healthcare. Includes AED, BVM, and two-man CPR. Two-year certification through the American Heart Association. Hands-on lab required.

HEARTCODE ACLS (Advanced Cardiac Life Support)

Students get realistic patient scenarios through eSimulation technology and are presented with ten ACLS scenarios and a written exam. Students will be required to assess each patient, formulate a treatment plan based on ACLS guidelines, and provide treatment. At the successful completion of the online portion, students will be required to schedule a skills practice and testing with a Bridgerland Tech ACLS instructor. Students will have 30 calendar days to complete this course (both the online and the skills components).

➡ ONLINE

EMSR 0105	Online • Registration ongoing	$195

HEARTCODE PALS (Pediatric Advanced Life Support)

HeartCode PALS is a web-based, self-directed eLearning course that teaches the skills to recognize and prevent cardiopulmonary arrest in infants and children. Featuring eSimulation technology, HeartCode PALS provides students the ability to assess and treat pediatric patients in a virtual clinical setting. Students apply their knowledge to make real-time assessments and treatment actions while completing their PALS training. HeartCode provides immediate feedback and debriefing on students' performance. Students will have 30 calendar days to complete this course (both the online and the skills components).

What's Happening at
Bridgerland
TECHNICAL COLLEGE?

With the passing of Senate Bill 238, the Utah State Legislature changed the name of Bridgerland Applied Technology College to Bridgerland Technical College effective July 1, 2017. While many things have changed in the last 46 years, Bridgerland Technical College has consistently provided hands-on, competency-based education for a myriad of technical careers. Unlike many educational experiences, Bridgerland Technical College students find the instructors are experts in their career fields and function as personal tutors to help them not only "learn" but master the chosen material.

This name change reflects Bridgerland Technical College's commitment to the advancement of higher technical education. A college education in technical fields provide advanced career opportunities for high school and adult students. Bridgerland Technical College is on the forefront of shaping a successful future for every student in the Bear River Region.

A major contributor to the success of the College is the close working relationship with business and industry in the region. The input of program-specific local industry advisory committees has allowed Bridgerland Technical College to develop industry-standard quality curriculum. This, coupled with state-of-the-art equipment and facilities, has resulted in Bridgerland Technical College being recognized as one of the flagship regional colleges in the Utah System of Technical Colleges (formerly known as the Utah College of Applied Technology).

The College's goal was, is, and always will be, "Get In, Get Out, Get a Job!" While there is so much more to be said, our Student of the Year, Ben Olsen (pictured right) says it best:

"I have had an overall wonderful experience in the Robotics and Automation Program. Although I have not always enjoyed every aspect of it, I have thoroughly enjoyed learning here, and have enjoyed the support and teaching of BATC in both Brigham City, Utah and Logan, Utah. The teachers have all made me grow and learn, even in my adulthood, in ways I did not expect and have made me even more professional in the civilian environment."

Audrey Baugh, an alumni of the Business Technology Program states, "I was surprised just how much I learned in the Business Program! I use my BATC education every single day in my new marketing career. I love how each BATC program is designed to "train" students and not just "teach" them, so every student is prepared to handle real-life job environments when they graduate."

CERTIFICATE PROGRAMS

Our nationally accredited programs generally take from six months to one year to complete at a tuition rate of only $1.90 per hour (apprx. $2,500 for a full one-year program.) These career programs provide industry-recognized training and program credentials needed to enter the workforce, to change occupations, or to advance in career positions. For more information about starting your career today, visit us online.

Program lengths and costs are estimates only. Actual enrolled hours will depend on a student's personal motivation and/or abilities. Textbooks/eBooks may be required; find details at batc.edu/programs. All information is believed to be true and correct at time of publication. Bridgerland Technical College reserves the right to make necessary changes at any time.

We have campuses in Logan "L" and Brigham City "B". Estimated cost includes tuition and fees. For information on books and supplies, visit www.batc.edu/programs. Average wage data ranges from none to some experience and is gathered from program advisory committees and the DWS. We offer a wide range of financial aid; Pell Grant is one of many opportunities available.
