TRANSCRIPT INFORMATION

The Utah System of Higher Education is comprised of eight public universities and eight technical colleges and governed by the Utah Board of Higher Education. The Utah State Legislature founded Bridgerland in September of 1971.

Bridgerland Technical College instructional programs are typically offered in an open-entry/open-exit environment and are competency based. Students are able to enroll throughout the year, depending on the program. Students are able to progress through instructional programs as skills and competencies are mastered. Instructors monitor completion time and evaluate student performance. Students graduate when they have mastered the skills and competencies of all required courses rather than at the end of the year.

TYPES OF CERTIFICATIONS/DIPLOMAS

Certificates

Bridgerland offers a Certificate credential program completion directly related to preparing individuals for entry-level employment in current or emerging occupations.

Associate of Applied Technology (AAT) Degree

The AAT Degree was a competency-based associate degree offered from September 2002 through June 2012. Students graduated with course work equivalent to 63 semester credit hours, based upon a 30-clock hour to 1 semester credit hour formula. The Utah State Board of Regents, the Utah System of Higher Education governing board at the time, approved all AAT degrees.
