Bridgerland Technical College DRUG AND ALCOHOL PREVENTION PROGRAM

It is the policy of Bridgerland Technical College to maintain a drug and alcohol free workplace (BTECH Policy 300.313 & 600.640). The College shall provide for a safe and productive work and educational environment that is free from the effects of possession, use, or distribution of illicit drugs and alcohol.

Drug and Alcohol Program

This program strictly prohibits the illegal use, possession, manufacture, dispensing, or distribution of alcohol, drugs or controlled substances in the workplace, on its premises, or as a part of all school sponsored activities. A violation of this policy is considered a major offense, which may result in requirement for satisfactory participation in a drug or alcohol rehabilitation program, referral for criminal prosecution, and/or immediate disciplinary action up to and including termination from employment and suspension or expulsion from the school. A criminal conviction is not required for sanctions to be imposed upon an employee or student for violations of this program. Violations of applicable local, state, and federal laws may subject a student or employee to a variety of legal sanctions including but not limited to fines, incarceration, imprisonment and/or community service requirements. Convictions become a part of an individual's criminal record and may prohibit certain career and professional opportunities.

This program is written to comply with the US. Department of Education regulations found in 34 CFR part 86.100(b).

Drug Free Schools Notice to Students

The College is a drug free campus. Drug and/or alcohol use impairs memory, alertness, and achievement. Their use erodes the capacity to perform, think, and act responsibly. Therefore, any form of such substance abuse creates an extreme danger in the school to students, employees, and others. Substance abuse can be grounds for termination of your enrollment or employment at this institution.

1. The College has a policy of maintaining a drug free school atmosphere. All students are hereby notified that the unlawful manufacture, distribution, dispersion, possession, use of a controlled substance, or alcohol, or the presence of a controlled substance or alcohol in your body's system is prohibited on this institutions' premises. These "premises" are defined as all school property, including building interiors and exteriors, sidewalks, parking lots, privately owned vehicles parked on school premises, as well as desks, lockers, and storage areas. This prohibition applies to students' performing any school related tasks or attending any school sponsored functions, including field trips, regardless of location on or off school premises.
2. Pursuant to its Drug Free Schools Program, the College may conduct a reasonable search of a student's work area, locker, vehicle (driven on or parked on school property), or other personal items. Continued enrollment is contingent upon your submission to a reasonable search.
3. According to the severity of the violation, in the judgment of school authorities, the following disciplinary sanctions will be imposed upon students for drug or alcohol abuse violations occurring on school premises:
 - Oral or written reprimand.
 - Suspension from school.
 - Mandatory entry into a drug or alcohol abuse counseling, treatment, or rehabilitation program. If referred, failure to enter and successfully complete such a program will result in immediate termination.
 - Immediate termination without referral to a treatment and rehabilitation program.
 - Referral of violation to local law enforcement agencies for prosecution.
4. Students should be aware that substance abuse inhibits employment opportunities. There is an ever growing sentiment among employers nationwide that drugs and alcohol will not be tolerated in the work place. Employers in nearly every field now require pre-employment screening to detect drug and alcohol abusers. Remember, even though you may graduate from the program in which you are enrolled, substance abuse can inhibit career opportunities.
5. Drug and alcohol counseling, treatment, and rehabilitation programs are available at, but not limited to, the following location:
 - Bear River District Health Department

(435) 730-2793 Box Elder County – Counseling Crisis Line

6. All students must read, understand and agree to the following:
- I understand that as a condition of my enrollment and continued attendance at this institution, I must agree to the terms of Paragraphs 1-4 above.
 - I must notify the College Administration of any criminal drug statute conviction for a violation occurring on school premises no later than five (5) days after such conviction.
 - I understand that this institution has established a drug free awareness program to inform students about:
 - This institution's policy of maintaining a drug free school.
 - The penalties that may be imposed upon students for drug or alcohol abuse violations occurring on school premises.
 - The health risks of drug and alcohol abuse.
 - The availability of drug and alcohol counseling, treatment, and rehabilitation programs.
 - The inhibition of employment opportunities should I be identified as a substance abuser.
