1301 N 600 W or Online at
Logan, UT 84321 btech.edu

This federal financial aid College Financing Plan/Shopping Sheet is a consumer tool that the College provides to make students aware of their financial cost to attend. It is a standardized form that is designed to simplify the information that students receive about costs and financial aid. This Plan/Sheet provides space to include figures that are estimates only and all amounts are subject to error and change without notice. Bridgerland's allowances may not match your actual costs. For example, housing and personal expenses are based on averages available locally and may vary greatly based upon your personal choices and situation. Any estimates and amounts included in the Plan/Sheet are not binding on the College or its employees, the State of Utah, or the US Secretary of Education.

Glossary

Estimated Cost of Attendance (COA): The total amount (not including grants and scholarships) that it will cost you to attend school for the year. COA includes tuition and fees, room and board, personal expenses, and books, tools, and supplies required for the successful completion of your program. The COA for students attending less than half time (less than 15 hours per week) includes only tuition and fees, and required books, tools, and supplies.

Family Contribution/Expected Family Contribution(EFC): An index number used by a school to determine how much financial aid you are eligible to receive, if any. Your EFC is determined by the financial information you provided on your Free Application for Federal Student Aid (FAFSA). It is not the amount of money your family will have to pay for college, nor is it the amount of federal student aid you will receive, but rather the amount you can reasonably contribute to the cost of your education. The family contribution is reported to you on your Student Aid Report (SAR).

Graduation Rate: The percentage of students who graduate from an institution. This percentage demonstrates students who began their studies as first-time, full-time degree/certificate seeking students and completed their degree/certificate within 150 percent of "normal time." As first-time, full-time refers only to those students whose enrollment at Bridgerland is their first ever college experience, our reporting here recognizes the placement of ALL students who begin training and receive a certificate or gain employment in their field of study. For a student enrolled in a 900-hour program at the College, the graduation rate would be the percentage of students who completed that program within 1,350 hours. *Percentages may vary by program. Visit with the Student Success Office for specific rates regarding your selected program.*

Loan Default Rate: The percentage of student borrowers –undergraduate and graduate—who have failed to repay their federal loans within three years of leaving a particular school. A low loan default rate could mean the institution's students are earning enough income after leaving school to successfully repay their loans. *Bridgerland does not participate in any loan programs—federal, state, or private.*

Loans: Borrowed money that must be repaid with interest. Loans from the federal government typically have a lower interest rate than loans from private lenders. You can find more information about federal loans at studentaid.gov. *Bridgerland does not participate in any loan programs—federal, state, or private.*

Median Borrowing: The amount in federal loans the typical undergraduate student takes out at a particular institution. It also indicates the monthly payments that an average student would pay on that amount using a 10-year repayment plan. *Bridgerland does not participate in any loan programs—federal, state, or private.*

Net Costs: An estimate of the actual cost that you and/or your family will need to pay during the year to cover education expenses. Net costs are determined by subtracting your grants and scholarships from the COA.

Total Grants and Scholarships: Student aid funds that do not need to be repaid. Grants are often need-based while scholarships may be need and/or merit based. Students may need to pay back all or part of federal or state grant funds if the student withdraws before completing time for which the student received payment. Exceptions may apply.

Work-Study: A federal student aid program that provides part-time employment while you are enrolled in school to help pay for your education expenses. *Bridgerland does not participate in the Work-Study program.*
