## **DRUG AND ALCOHOL ABUSE PREVENTION PROGRAM**

### **Purpose of Program**

As a condition of receiving funds or any other financial assistance under any Federal program, Bridgerland Technical College has adopted and implemented a Drug and Alcohol Abuse Prevention Program (program). The College shall provide for a safe and productive work and educational environment that is free from the effects of the unlawful possession, use, or distribution of drugs and alcohol by students and employees on the school's property, or as part of the school's activities. This ongoing program is written to comply with the U.S. Department of Education consumer information disclosure requirements for drug and alcohol abuse prevention, and the drug-free schools, communities, and workplace acts. See Sources below.

It is the policy of Bridgerland Technical College to maintain a drug and alcohol free workplace and education environment. This program supports College policies 300.313 Drug and Alcohol Free Workplace; Drug and Alcohol Testing, and 600.640 Student/Visitor Drug- and Alcohol-Free Education Environment. The policies can be found on the Plans, Policies, & Procedures page of the College's website: <https://btech.edu/about-us/policies-2/>

### **Standards of Conduct**

The College is a drug- and alcohol-free campus. The College expects employees and students to report to work and school assignments unimpaired and ready to work or learn safely and efficiently. The unlawful manufacture, dispensing, possession, use, or distribution of drugs or alcohol by students, visitors and employees on school property, or as part of the schools activities, is prohibited. School property is defined in policy and includes any setting where students or employees are participating in a college or work related task or activity, regardless of location.

### **School Imposed Sanctions Statement**

The College will impose disciplinary sanctions on students, visitors, and employees for violations of the standards of conduct. These sanctions are outlined in the College policies referenced in the Purpose section of this program and are consistent with local, state, and federal law. Sanctions may include the completion of an appropriate counseling, treatment, or rehabilitation or reentry program, dismissal from school, termination of employment, and/or referral for prosecution.

In addition to any disciplinary action imposed by the school, violations of this program may be referred to appropriate law enforcement agencies where further sanctions may be imposed.

### **Sanctions under Local Law**

The efforts of the Cache/Rich Drug Task Force and the Logan City Police Department encompass a zero-tolerance approach to dealers and users of illegal drugs. More information may be found at [www.loganutah.org](http://www.loganutah.org)

### **Sanctions under State Law**

Possible penalties for a controlled substance conviction depends on the level of the crime being charged. Violations of the law may subject an offender to a variety of legal sanctions including but not limited to a criminal record, fines, driver's license suspension, incarceration, imprisonment and/or community service requirements. Penalties for illicit drug use are governed by federal laws and the state of Utah will enforce them to their fullest extent. Additional information for Utah Drug Laws and Utah Alcohol Laws can be found in Utah Codes 58-37-8 and 32B.

### **Sanctions under Federal Law**

Controlled substance convictions under federal laws carry penalties ranging from up to one-year imprisonment and a minimum fine of \$1,000, to up to life imprisonment and fines of \$2,000,000. Federal convictions can lead to forfeiture of real estate and personal property, the denial of federal benefits, and certain professional and commercial licensures. See Title 21 of the United States Code, Controlled Substances Act, Chapter 13, Drug Abuse Prevention and Control and/or visit the United States Drug Enforcement Administration for more information.

### **Available Counseling, Treatment, or Rehabilitation or Reentry Programs**

The College does not offer professional services to students or employees however, drug and alcohol counseling, treatment, or rehabilitation or reentry programs, though not limited to, may be available at or through, the following locations and resources:

### **Dangers, Health Risks and Other Risks Associated with Illicit Drug and Alcohol Use**

Drug and/or alcohol use impairs memory, alertness, and achievement. Among so many other health risks and dangers it can cause depression, drowsiness, anxiety, panic, unpredictable behavior, damage to unborn fetus, respiratory failure, heart disease, lung damage, skin problems, stomach problems, sexual impotence, tremors, accidents, and even death. Drug and/or alcohol use erodes the capacity to perform, think, and act responsibly; therefore, any form of such substance abuse creates an extreme danger at the College to students, employees, and others. For detailed information on the effects of various types of alcohol and drugs on health and wellness, please refer to the National Institute on Drug Abuse website: [www.drugabuse.gov](http://www.drugabuse.gov)

Convictions become a part of an individual's criminal record and may prohibit certain career and professional opportunities. Substance abuse can inhibit career opportunities even for those who may graduate from College programs.

### **Program Distribution**

The College's Drug and Alcohol Abuse Prevention Program information will be distributed annually to each employee and each student. In addition, the program will be available on the College's Consumer Information webpage. Distribution of this program will be made to new students who enroll or new employees who are hired after the initial distribution for the year.

### **Biennial Review**

The College will compile a biennial review of this program to determine its effectiveness and implement needed changes, and ensure that disciplinary sanctions are consistently enforced. The review determines the effectiveness of the sanctions on students and employees for violations of the standards of conduct. The results of the review are posted on the College's Consumer Information webpage.
