† Certificate-seeking students are counted once in each accredited program in which they enroll. Hence, a student who completes an accredited program and enrolls in a separate program (e.g., completion of Certified Nursing Assistant and subsequent enrollment in Surgical Technology) is counted twice herein.

‡ Note that graduation rates reported to the Council on Occupational Education differ from those shown here due to methodological differences. Whereas COE instructs accredited institutions to remove allowable subtractions prior to the calculation of graduation rates, the rates presented herein are calculated prior to the removal of allowable subtractions.

§ Non-graduate completers, under direction received from the Council on Occupational Education, include those students who exit their programs of study without obtaining an accredited certificate but obtain employment in a field related to instruction received consequent to the students' studies at the technical college. This category also includes students who leave a program unsuccessfully but enroll at another institution of higher education where an articulation agreement exists, allowing students' coursework to fulfill program requirements elsewhere.

|| Students documented to be unavailable to earn a credential in their program(s), or to be placed in employment, due to situations such as pregnancy, other serious health-related issues (physical/mental/behavioral), caring for ill family members, incarceration, death, service with a foreign aid organization of the U.S. Government (e.g., Peace Corps), an official church mission, military relocation, etc.

¶¶ All Job Upgrade students are currently employed in a field related to the instruction received, enrolling in (a) course(s) belonging to an accredited program with the intent to advance in the workplace. Because these students enroll in portions of accredited programs, they are included in annual completion and placement figures reported to the Council on Occupational Education. These students generally enroll in only small portions of programs, and thus are typically reported to COE as non-graduate completers due to their employment. Herein they are held separate from certificate-seeking students, or those students intending to complete a full program and earn a postsecondary credential. Because they are held separate from certificate-seekers, completion and placement rates displayed above are not equal to those reported to the college's accrediting body.

¶¶ Note that secondary headcounts displayed are stratified by the total hours accrued by students within FY 2019. Secondary certificate awardees, conversely, are stratified by the length of program completed, irrespective of when the required hours were completed. Some students began their certificate programs and accrued most of the required hours prior to FY 2019, but completed their certificate programs during the fiscal year. Hence, the number of secondary certificate awardees in a particular program length stratification may be greater than the headcount of students accruing the specified amount of hours during the fiscal year.
