

BADGE APPS

MAPPING LOCATION DATA AND IP/APP/INTERNET INVESTIGATIONS FOR POLICE

2-DAY TRAINING

June 29 - June 30 2026
0800hrs - 1700hrs (MT)
Cost: \$149

HOSTED BY YOUR AGENCY IN-HOUSE

**DAY
1**

Location data now comes from many sources including: Google Accounts, Cellular Companies area searches and tower dumps, social media and vehicle data. Training will include hands-on case studies to become proficient with mapping data.

**DAY
2**

What is an IP address and how can I use it to identify suspects in cases involving email addresses, mobile device apps, website visits, social media accounts, classified ads and VOIP (Voice-Over-IP) telephone numbers like Signal and Telegram?

**TARGET
AUDIENCE**

Law enforcement employees to include detectives, crime analysts and sworn officers can benefit from this training. Example offenses include cold case murders, robbery, burglary, narcotics and fraud offenses.

INSTRUCTOR BIO

Aaron Benzick is a police detective working for a law enforcement agency in the suburbs of north Texas for over 23 years. As the founder of Badge Apps, Aaron has used his strong technical background to create unique software to solve law enforcement problems. This combination of skills has led to the successful identification and apprehension of numerous suspects in complex criminal investigations and missing person cases.

LOCATION OF TRAINING:

Bridgerland Technical College
1410 North 1000 West
Logan, UT
West Building, Room # 1970
