

**HSGN 0011**

**Phlebotomy**

**60 Clock Hours**

This continuing education course covers the basics of laboratory science expanding your skills on how to collect and draw blood and other lab specimens for clinical and hospital laboratory testing. Students who complete this course will take the National Healthcareer Association (NHA) Certified Phlebotomy Technician Examination to obtain national certification. The text, packet, lab coat, and safety goggles must be purchased prior to the first class and are available at the Bookstore. Tuition and fees include \$115 for the NHA Certified Phlebotomy Technician Examination. Prerequisite: student must be at least 18 and provide a current AHA BLS Provider CPR certificate (proof required at time of registration).
